University Hospital Schleswig-Holstein, Campus Kiel, Germany
- 2005 - 2011 Project manager for the particle therapy centre NRoCK, Kiel, Germany
- 2008 - 2011 Operational and technical director of NRoCK GmbH, Kiel, Germany
- 2012 - 2015 Head of technology at VAMED Health Project GmbH, (VHP) Berlin, Germany
VAMED designs and builds healthcare facilities around the world. The
German branch, VHP has its focus on planning of medical technology. By
restructuring and strategic reorientation VHP should become a general
contractor in the healthcare market. This concerns in particular the area,
which I chair. I managed the following fields:
- Reports on management and board level
 - HR management, to build up a high-performance team
 - Support of the bid management department on strategic issues
 - Support of the executive board for the development of new areas of
business
 - Project manager for a hospital building project: "Main Taunus Kliniken
in Hofheim". The project volume amounts approx. € 50 million.
- 2012 - today Cofounder, CEO and shareholder of ParTCoN GmbH
